

# **Assisting Government Agencies with Promotion of Private Participation Infrastructure Projects (2022-2025)**

## **I. Project Purpose**

This project aims to improve the environment of private investment by introducing private funds for infrastructure, increasing the investment success rate year by year, enhancing private investment capacity, accelerating provision and improvement of the quality of public service, stabilizing the country's finances, and boosting the dual goals of economic development and social justice.

## **II. Implementation Content**

1. Expanding the power of policy guidance and optimizing PPP legal environment
  - (1) Collaborating with “PPP promotion group from Executive Yuan” to expand the power of policy guidance.
  - (2) Optimizing PPP legal environment, and improving the effectiveness of promotion.
  - (3) Improving operation mechanism, developing strategies for promotion to reach effectiveness.
  - (4) Setting up PPP general counsel to assist planning promotion strategies, as well as providing consultation to overcome obstacles.
2. Boosting power of promotion by coaching, marketing, and stimulus measures
  - (1) Expanding of subsidies for pre-operation costs to PPP cases and effectively increasing the source of cases.
  - (2) Adjusting the training approach for PPP professionals, expanding the scale of training, and strengthening professional knowledge.
  - (3) Co-examining each phase of the documents for PPP-subsidized cases and strengthening the management examination to improve the success rate of investment.
  - (4) Organizing the selection of the Golden Thumb Awards and rewarding outstanding teams in order to enhance morale.
  - (5) Organizing PPP conventions and creating “PPPiMap”, an online website to help strengthen matching opportunities.

- (6) Constructing incentive measures and expanding the usage of rewards to increase the willingness to participate in PPP cases.
3. Strengthening supervision and performance evaluation, helping resolve contract performance disputes
  - (1) Strengthening supervision management of PPP cases, and establishing performance evaluation and reward mechanism.
  - (2) Founding and operating the Mediation Group for Disputes Regarding the Performance of the Contract.
  - (3) Bolstering PPP international interaction to enhance PPP knowledge.
  - (4) Optimizing PPP information platform system and reinforce evaluation system.

### **III. Expected Benefits**

1. Strengthening and constructing good PPP legal environment to increase the source of PPP cases.
2. Conducting PPP research, survey, and evaluation, as well as accumulating domestic and foreign experiences in order to bolster our PPP approaches and creating a sounder operation system.
3. Completing administrative promotion and coordination system, and overcoming investment barriers to improve promotion efficiency.
4. Setting up PPP general counsel for assisting policy planning, counseling, cases planning, overcoming investment barriers, and providing consulting services.
5. Operating Mediation for Disputes Regarding the Performance of the Contract to quickly solve the problems.
6. Expanding the scale and contents of PPP professional training, and strengthening the professional and practical abilities of the participants to increase willingness and quality for operation of PPP cases.
7. Increasing subsidies for pre-operation costs, and effectively expanding the source of cases. Co-examining each phase of the planning for PPP subsidized cases and effectively improving the quality of PPP preparatory work and success rate.
8. Setting up “PPPiMap” so that investors are able to obtain the latest information and investment opportunities, which makes effective matching effects.
9. Adding PPP Rewards for central ministries to encourage them to make

priority consideration of operating PPP cases.

10. Strengthening the supervision and evaluation mechanism, providing timely assistance, and reducing early termination of contracts.
