

**Meeting Minutes of the 2022 1st Meeting of Open Data Advisory Group,
Ministry of Finance**

I. Time: 2022/8/23, 2:30 P.M.

II. Location: Fiscal Information Agency (hereinafter referred to as “FIA”) 102 Conference Room

III. Reporting Matters:

1. To elaborate the planning theme of “High Application Value Data” proposed by the National Development Council (hereinafter referred to as “NDC”), please be informed and give instructions.

Resolution:

(1)The case is retained for future reference.

(2)If the public propose the need for the category of financial and tax “High Application Value Data” in the future, each department and institution of the Ministry of Finance (hereinafter referred to as “MOF”) shall list the MOF “High Application Value Data” from existing open datasets or add new datasets which meet required definition, and to review and proceed according to the “High Application Value Data” theme evaluation procedure made by the NDC.

2. The current status of each department and institution of the MOF conducting the 2022 “Government Open Data Awarding Event” held by NDC, please be informed and give instructions.

Resolution:

(1)The case is retained for future reference.

(2)Each department and institution of the MOF shall follow the planning of the FIA to maintain and inspect the open dataset quality labels. The objective is to update and revise the dataset to pass the gold label certification inspection, so as to continue and gain more platinum label certifications according to the dataset properties, in order to increase the MOF open data quality for public use.

3. To ensure the service availability and data consistency of the MOF Open API provided on the Government Open Data Platform, each department and institution of the MOF shall periodically inspect the content of the Open API, please be informed and give instructions.

Resolution:

- (1)The case is retained for future reference.
- (2)Each department and institution of the MOF who provided the Open API, shall periodically inspect the service availability of the Open API, and the data consistency between the contents of the open datasets and the Open API query results. The FIA will perform quarterly verification afterwards to ensure the service quality of the MOF Open API.
